

Utility Cart Bag

UCB2500 / 14748

Features and Benefits

Increase the loading capacity of the UTC2200 or UTC5500 Utility Cart with the UCB2500 Cart Bag. The reinforced bottom provides a solid surface for placing amps and other gear while the sides enclose and stabilize non-stackable items such as drum hardware, enabling more equipment to be loaded at once. Corner straps save space by securely holding speaker, lighting, and mic stands in the upright position while exterior accessory pockets carry anything from cables to microphones or other small accessories. For safe transportation, hook-and-loop straps ensure the bag is safely attached to the cart frame.

Specifications

Size: 40" (L) x 12" (W) x 20" (H)

Material: Heavy-duty nylon

Color: Black

Fits: UTC2200, UTC5500
